

**INSTITUTE OF TECHNOLOGY OF CAMBODIA**

**DEPARTMENT OF INFORMATION AND COMMUNICATION ENGINEERING**

**Subject: INTERNET PROGRAMMING**

**Professor: TIN HOK**

**ASSIGNEMENT: TP04**

Name: yen oudom

Id: e20181269

Department: GIC<sub>4</sub>-C

Objective: Promise and Fetch

**(2021-2022)**

Git repository url: <https://github.com/Oudom1/TP04.git>

Branch: TP05

Capture screen: attached file.

Ex1. Build a number counter app with class/object concept and local storage

#### Exercise1:

Consider you're working a big project which the one user information may be stored in many database. Design "Promise" object to handle the process in order to get a complete user's information. Apply "Promise.all" to run all promise objects.

Id	Gender	Pic	Name	Age
4	F		Dara	20

#### Exercise2:

Apply the fetch function to our previous book app. Free Api from [jsonplaceholder.typicode.com](https://jsonplaceholder.typicode.com)
